

Weekly report Ma140a

Instructor Juan Pablo Vigneaux

Winter 2024

What did you learn?

Did anything that you learned surprise you?

Which concepts are still not clear and require further work? What would you like help with?

This week, I spent ____ hours working on the course, of which ____ consisted of timed, focused, and structured work, and ____ is an estimate of untimed of work. (term's total so far is ____)
(term's total so far is ____)
(term's total so far is ____)

During that time, I engaged in the following activities:

What were you trying to get out of each activity?

What was the most helpful activity? Why?

What was the less helpful activity? Why? What would you do differently?

Why did you select the solutions that you are submitting? Which goal(s) does each problem align with?

How does feedback from previous weeks influenced which activities you chose and how you wrote your solutions?

Anything else you would like to say or record here:
